RETEARIAL APPROACH TO LAW AND ECONOMICS
The first fundamental principle for the constitutional approach is:

B. Reasonable Predictions

The reasonable predictions that are reasonably foreseeable implications are legal.

The reasonable predictions are believed to be reasonable, not just possible. This belief is based on the reasonable foreseeability of the implications of the reasonable predictions. The reasonable predictions are based on the reasonable foreseeability of the implications of the reasonable predictions.

Reasonable predictions are based on reasonable implications, not just possible implications. Reasonable predictions are believed to be reasonable, not just possible. This belief is based on the reasonable foreseeability of the implications of the reasonable predictions. The reasonable predictions are based on the reasonable foreseeability of the implications of the reasonable predictions.
