São Paolo and Paraná States, Brazil, 3rd to 18th September 2006

Guides: Edson Endrigio (4-13 Sept., avesfoto@avesfoto.com.br) and Raphael Luiz Moura Sobânia (14-17 Sept., email natrihacerta@natrilhacerta.com.br).

With Hugh Dingle, Peter and Margaret Armstrong and for 4-13 Sept. David and Kay White from England.

Overview and Highlights

During 15 days I recorded 397 bird species and 380 of these were seen. Voice only records were based on hearing recordings of birds alongside hearing the bird responding except for a few species that I knew already. I saw 214 life birds and heard another 24 species.

3 September: arrive in Sao Paolo at 10:30 hrs and spent day at airport hotel (Best Western Panamby Hotel). Birding in the hotel gardens produced about 33 species including Swallow-tailed Hummingbird!

4 September: drive to Ubatuba and bird Folha Seca trail and feeders at Jonas's house, c 11 km WSW of Ubatuba. The feeders at Jonas's house produced lots of good hummingbirds and tanagers including Festive Coquettes, Brazilian Ruby and Sombre Hummingbird. The afternoon produced Tawny-throated Leaffosser, Slaty Bristlefront and close calling but not seen Unifrom Crakes. Owling until 19:00 hrs. Night in Ubatuba at Recanto das Palmeiras Lodge which was pleasant and with full amenities.

5 September: bird lowland Angelim Rainforest until lunchtime and then Folha Seca trail again in the afternoon and owling until 19:00 hrs. Angelim produced Buff-throated Purpletuft, Temminck's Seedeater, and a good variety of antbirds, antshrikes and antwrens. The afternoon produced Star-throated Antwren and Long-billed Wren. A Variable Screech-owl called after dark and flew over but was seen only in flight. A Mottled Owl was seen well. Night in Ubatuba again.

6 September: Drive to Campos do Jordao, stopping in morning at farm c. 13 km due WNW of Tremembe for Firewood-gatherer and other open country birds. Arrive at Campos do Jordão at 11:30 and drive up road beside entrance to State Park before lunch to get Hellmayr's Pipit in grassy areas at the top. (Hell Mary's Pipit according to our rendering of Edson's pronunciation.) Birding in montane deciduous and Araucaria forest on the way down produced Black-capped Piprites, Araucaria Tit-spinetail, Sharp-tailed Streamcreeper, and White Woodpeckers among others. Lunch in Campos do Jordão then birded the state park in the afternoon ending with Vinaceous Parrots flying to roost at dusk then owling up road beside park (again) but unsuccessfully. Night at Hotel Vale Verde Campos do Jordão, which was unheated but had warm showers and electric blankets.

7 September: Frosty cold morning. Birded montane forest along Pedro do Bau Road starting at c. 7.9 km due NNW of Campos do Jordão until 9:00 hrs and then drove to Intervales State Park arriving at 17:00 hrs. Morning birding produced Serra do Mar Tyrannulet, Serra Tyrant Manakin, Gray-bellied Spinetail, Red-ruffed Fruiterow, and Robust Woodpecker among others. Saw Tawny-browed Owl and Long-trained Nightjar along Largeado Road after dark (up to 19:00 hours approx).
Night at lodge in Intervales State Park, which was basic but with a fire to sit around.

8 September: Excellent morning birding Carmelo trail in morning, lunch at dining hall in state park, then trails around lodge in afternoon. Highlights included a pair of Spot-billed Toucanets feeding on palm fruits and then the male feeding the female, Sharpbill, Hooded Berryeater, Helmeted Woodpecker, and an as yet undescribed form of Slaty Bristefront. Ended day with Rusty-barred Owl and displaying Long-trained Nightjars after dark, then. Dinner and night at lodge.

9 September: A quieter day compared to yesterday. Largeado trail in morning, Bocaina Road and Barra Grande Road in afternoon (to 19:00 hours) ending with Silky-tailed Nightjar. Hiking the Bocaina Road produced Short-tailed Ant-thrush and Sao Paolo Tyrannulet among others. Playing a tape into a recently cleared area in a marsh produced Red-and-white Crake in the afternoon. Meals and night at lodge.

10 September: Carmelo Road in the morning, trails around lodge and Barra Grande Trail in afternoon. Highlights included Such's Antthrush and Least Pygmy-owl. Saw 3 Swallow-tailed Cotinga near the park entrance in late afternoon. Day ended at 19:00 on Carmelo road after seeing Ocellated Poorwill and hearing Silky-tailed Nightjar. Meals and night at lodge.

11 September: Early morning departure for Itatiaia, arriving there at about 16:00 hours. Stopped at two roadside marshes to pick up water and open country birds along the way. Saw Southern Antpipit shortly after entering the park and then drove to Nora's House to visit the feeders to see Frilled Coquette and others. Variable Screech-owls at Hotel Donate shortly after dark. Dinner and night at Hotel Simon in Itatiaia National Park, luxurious!

12 September: 4:40 am departure for marshes near Quelzes to see Giant Snipe at dawn—spectacular views! Birded Agulhas Negras Road up into the park in the morning going up to high altitude forest. Highlights included Speckle-breasted Antipitta and Black-and-gold Cotinga, as well as Rufous-backed Antvireo. Returned to the farm with the snipe at lunchtime to look for open country birds and see Whistled Puffbird. Late lunch at Hotel Simon in Itatiaia followed by birding feeders at hotel until 16:30 hours.

13 September: Birded Tres Picos Trail in Itatiaia National Park until 11:30 hours. Dusky Titi Monkeys along trail, and good views of Rufous-tailed Antthrush and Rough-legged Tyrannulet. Arrived back at hotel to find Swallow-tailed Cotingas in the parking lot. Lunch at hotel then drove back to Sao Paolo in the afternoon, arriving at shortly after 17:00 hours. A brief stop at the marsh on the way out of Itatiaia produced Wedge-tailed Grass-finch. Night at Best Western Panamby Hotel.

14 September: departed at 05:30 for Paraná State with Raphael and new driver, Sergio. Birded the Graciosa Road east of Campo Grade from about 11:00 to 13:00 hours. Grasslands produced Long-tailed Reed-finch but the highland areas were windswept and it was hard to find many birds in the midday heat. We stopped for lunch at an old hotel and ate good local seafood. We proceeded to the coast near Pontal Do Paraná and birded some coastal grasslands for Yellowish Pipit and South American Snipe. Took a private charter boat from Pontal Do Paraná to Isla Dos Pinheiros and sat just offshore watching around a thousand Red-tailed Parrots
flying to roost on the island. Also several pods of Tucuxi dolphins. The boat trip to the island also produced a Cayenne (Sandwich) Tern. We spent the night on a neighboring island (town of Caiobá) and stayed in the Bela Baia posada which was simple with bunkbeds and local seafood but adequate and peaceful.

15 September: We departed the island at dawn on the boat and then drove south to near Garuva in Santa Catarina State to bird a farm (Sitio Alegra) where we walked areas of scrubby woodland and reedy marsh in the late morning up to about 13:30 hours. The owners were friendly and helpful, and served us fresh passionfruit juice. We located Paraná Antwren (= Marsh Antbird), Restinga Tyrannulet and Kaempfer's Tody-Tyrant. We then drove to Curitiba back in Paraná State. We visited a small park in the city, Universidad Livre de Meio Ambiente with swampy woodland patches to see Canebreak Groundcreepers. At a farm with grassy scrub areas near the small town of Sao Jose Dos Pinheiros we found a Lesser Grass-finch and birded until dark, but were rained out at dusk putting pay to our hopes of nightjars. We drove back to Curitiba and during breaks between rain storms we found calling Long-tufted Screech-owls at Parque Barigui. Night in Campo Largo at a modern comfortable hotel with internet access.

16 September: We drove to NW to Vila Velha State Park near Ponto Grossa and talked the park personnel into letting us visit the cliffs to look at nesting Biscutate Swifts, see Plush-crested Jays and Glaucous-blue Grosbeak, and then to bird scrubby areas looking for Spotted Nothura and Red-winged Tinamou. We then drove in the rain and fog (low cloud) to Canyon Guartela State Park and walked down into the canyon. We had distant views of Great Dusky and Sooty Swifts. At about 1:30 it began to rain and the rain stayed with us for the rest of the day so we retired to a hotel in Tibagi, which was comfortable.

17 September: Drove from Tibagi to Curitiba then back to Sao Paolo. NW of Curitiba we stopped at a dirt road near Sete Salto and found Spotted Nothura and Sharp-tailed Tyrant. I caught a 21:55 flight back to the US.
Brazil 3rd to 18th September 2006.
Abbreviations: S1=breeding, S3=heard only, not seen, S4=feral/escaped.

3rd September
Hotel Panamby (Best Western), Sao Paolo

Blond-crested Woodpecker Celeus flavescens * 1 First record for MH.
Plain Xenops Xenops minutus 1
White-eyed Foliage-gleaner Automolus leucophthalmus * 3 First record for MH.
Tawny-throated Leaftosser Sclerurus mexicanus * 1 First record for MH.
Thrush-like Woodcreeper Dendrocincla turdina * 1 First record for MH.
Lesser Woodcreeper Xiphorynchus fuscus * 1 First record for MH.
Spot-backed Antshrike Hypoedeles guttatus * S3 1 heard only.
Unicolored Antwren Myrmotherula unicolor * 2 First record for MH.
Rufous-winged Antwren Herpsilochmus rufimarginatus * 2
Scaled Antbird Drymophila squamata * 1 First record for MH.
Streak-capped Antwren Terenura maculata * 1 First record for MH.
Black-cheeked Gnateater Conopophaga melanops * 1 male with 1 female. First record for MH.
Slaty Bristlefront Merulaxis ater * 1 First record for MH.
Bare-throated Bellbird Procnias nudicollis * S3 1 singing male heard only
Red-rumped Cacique Cacicus haemorrhous  2
Crested Oropendola Psarocolius decumanus c 3
White-bearded Manakin Manacus manacus 1 female/imm. 1
Blue Manakin Chiroxipha caudata * c 5 First record for MH.
Gray-hooded Flycatcher Mionectes rufiventris * 1 First record for MH.
Eye-ringed Tody-Tyrant Hemitriccus orbitatus * S3 1 heard only
Yellow-lored Tody-Flycatcher Todirostrum poliocephalum * 2 First record for MH.
Yellow-olive Flycatcher Tolmomyias sulphurescens 1
Whiskered Flycatcher Myiobius barbatus * 1 First record for MH.
Social Flycatcher Myiopogon similis 2
Red-eyed Vireo Vireo olivaceus 1
Tropical Parula Parula pitiayumi 1
Rufous-headed Tanager Hemithraupis ruficapilla * 2 First record for MH.
Brazilian Tanager Ramphocelus bresilius c 5
Azure-shouldered Tanager Thraupis cyanoptera * c 3 First record for MH.
Golden-chevored Tanager Thraupis ornata * c 3 First record for MH.
Palm Tanager Thraupis palmarum 2
Violaceous Euphonia Euphonia violacea c 5
Chestnut-bellied Euphonia Euphonia pectoralis * c 5. First record for MH.
Red-necked Tanager Tangara cyanocephala * c 5 First record for MH.
Blue Dacnis Dacnis cayana c 20
Green Honeycreeper Chlorophanes spiza c 10
Saffron Finch Sicalis flaveola 1

5th September
Angelim Rainforest, c 3 km due NNE of Ubatuba
23d 24.31'S, 45d 3.76'W.
Forest patches alongside trail. Some second growth and some primary growth, much bromeliads and epiphytes.
Substantial patches of bamboo.

Tataupa Tinamou Crypturellus tataupa * S3 2 heard only
Brown Booby Sula leucogaster c 10
Magnificent Frigatebird Fregata magnificens c 5
Whistling Heron Syrigma sibilatrix 1
Black Vulture Coragyps atratus c 30
Turkey Vulture Cathartes aura 1
Roadside Hawk Buteo magnirostris 1
Southern Caracara Caracara plancus 1
Kelp Gull Larus dominicanus c 3
Royal Tern Sterna maxima c 5. Distant views, probably this species
Pale-vented Pigeon Patagioenas cayennensis 1
Plumbeous Pigeon Patagioenas plumbea 2
Ruddy Ground-Dove Columbina talpacoti 2
Maroon-bellied Parakeet Pyrrhura frontalis 5
Plain Parakeet Brotogeris tirica * c 5 First record for MH.
Squirrel Cuckoo Piaya cayana 2
White-collared Swift Streptoprocne zonaris c 3
Gray-rumped Swift Chaetura cinereiventris c 10
Saw-billed Hermit Ramphodon naevius c 3
Violet-capped Woodnymph Thalurania glaucopis c 4
White-chinned Sapphire Hylocharis cyanus 1
Rufous-capped Spinetail Synallaxis ruficapilla * 2 First record for MH.
Red-eyed Thornbird Phacellodomus erythrophthalmus * 2. First record for MH. Orange-eyed form. A potential split.

Plain Xenops Xenops minutus 2
Streaked Xenops Xenops rutilans 1
Black-capped Foliage-gleaner Philydrorn atricapillus * 1 First record for MH.

Lesser Woodcreeper Xiphorynchus fuscus 3

Spot-backed Antshrike Hypoedaleus guttatus c 4 including 1 seen briefly. First record for MH.
Tufted Antshrike Mackenzierna severa * 1m with 1f
Spot-breasted Antvireo Dysithamnus stictothorax * 2 First record for MH.
Unicolored Antwren Myrmotherula unicolor 1 male
Ferruginous Antbird Drymophila ferruginea * c 5 First record for MH.

Scaled Antbird Drymophila squamata 1 male

White-headed Fire-eye Pyrgilena leucoptera * 2m, 1f
Squamate Antbird Myrmeciza squamosa * 1 First record for MH.

Rufous-capped Antthrush Formicarius colma 1 First record for MH.

Black-cheeked Gnateater Conopophaga melanops 1 male

Spotted Bamboowren Psilorhamphus guttatus * 2 including 1 seen. First record for MH.

Buff-throated Purpletuft Iodopleura pipra * 2 (pair) First record for MH.

Red-rumped Cacique Cacicus haemorrhous 1

Crested Oropendola Psarocolius decumanus 1

Blue Manakin Chiroxiphia caudata S3 c 3 heard only
Pin-tailed Manakin Illcura militaris * 1 imm. male, First record for MH.

Serra Tyrant-Manakin Neopelma chrysophloium 1
Wing-barred Piprites Piprites chloris 1
Gray Elaenia Myiopagis caniceps c 3
Gray-hooded Flycatcher Mionectes rufiventris 2
Sepia-capped Flycatcher Leptopogon amaurocephalus 1. First record for MH.
Oustalet’s Tyrannulet Phylloscartes oustaleti * c 5. First record for MH.
Bay-ringed Tyrannulet Phylloscartes sylvius * 3. First record for MH.
Planalto Tyrannulet Phylloscartes fasciatus 1
Gray-capped Tyrannulet Phyllomyias griseocapilla 1
Eared Pygmy-Tyrant Myioptila auricularis * c 4. First record for MH.
Common Tody-Flycatcher Todirostrum cinereum 1
Large-headed Flatbill Ramphotrichon megacephalum * S3 1 heard only
Yellow-olive Flycatcher Tolmomyias sulphurescens 1
White-throated Spadebill Platyrinchus mystaceus 2
Cliff Flycatcher Hirundinea ferruginea 2
Long-tailed Tyrant Colonia colonus 2
Cattle Tyrant Machetornis rixosa 2
Shear-tailed Gray Tyrant Muscipipra vetula 2
Gray-hooded Attila Attila rufus 2 including 1 seen well. First record for MH.
Sirystes Sirystes sibilator 1
Great Kiskadee Pitangus sulphuratus c 5
Three-striped Flycatcher Conopias trivirgatus * 1. First record for MH.
Greenish Schiffornis Schiffornis virescens S3 c 3 heard only
Chestnut-crowned Becard Pachyramphus castaneus 1
Sharpbill Oxyruncus cristatus * 1. First record for MH.
Gray-breasted Martin Progne chalybea 2
White-rumped Swallow Tachycineta leucorhoa c 7
House Wren Troglodytes aedon 1
Chalk-browed Mockingbird Mimus satinarus 1
Yellow-legged Thrush Platychichla flavipes c 30
Rufous-bellied Thrush Turdus rufiventris c 10
Rufous-browed Peppershrike Cyciathris gujanensis 2
Tropical Parula Parula pitiayumi 2
Golden-crowned Warbler Basileuterus culicivorus c 3
White-rimmed Warbler Basileuterus leucoblepharus S3 2 heard only
Bananaquit Coereba flaveola 2
Brown Tanager Orchestes abeillei * 2. First record for MH.
Magpie Tanager Cissopus leverianus 2
Rufous-headed Tanager Hemithraupis ruficapilla 1
Olive-green Tanager Orthogonys chloricterus * c 5. First record for MH.
Black-goggled Tanager Trichothraupis melanops 1 male
Sayaca Tanager Thraupis sayaca 2
Azure-shouldered Tanager Thraupis cyanoptera c 5
Diademed Tanager Stephanophorus diadematus 1
Green-chinned Euphonia Euphonia chalybea * 2 (m+f) First record for MH.
Brassy-breasted Tanager Tangara desmaresti 1 male
Blue Dacnis Dacnis cayana c 5
Green Honeycreeper Chloropogon spiza c 5
Swallow-Tanager Tersina viridis 2 (m+f)
Buffy-fronted Seedeater Sporophila frontalis * c 20. First record for MH.
Temminck’s Seedeater Sporophila falcirostris c 5
Uniform Finch Haplospiza unicolor c 50
Black-throated Grosbeak Saltator fuliginosus * 1. First record for MH.

9th September
Intervales State Park, Sao Paolo State
Only additional species to yesterday noted. Trails visited today: Lageado, Bocaina Road, Barra Grande Road.

Solitary Tinamou Tinamus solitarius * S3 1 heard only.
Cocoi Heron Ardea cocoi 1
Short-tailed Hawk Buteo brachyurus 1, light morph.
Yellow-headed Caracara Milvago chimachima 1
Barred Forest-Falcon Microstur ruficollis 2, including 1 seen flying over.
Dusky-legged Guan | Penelope obscura | * c 3. First record for MH.
Red-and-white Crane | Laterallus leucopyrrhus | * 2. First record for MH. Seen after responding to tape
Slaty-breasted Wood-Rail | Aramides saracura | 3
Blackish Rail | Pardirallus nigricans | * S3 1 heard only.
Blue-bellied Parrot | Tricara malachitacea | 1
Tropical Screech-Owl | Megascops choliba | 2
Variable Screech-Owl | Megascops atricapillus | S3 1 heard only.
Silky-tailed Nightjar | Caprimulgus sericocaudatus | * 1. First record for MH.
Yellow-fronted Woodpecker | Melanerpes flavifrons | 1. First record for MH.
Red-eyed Thornbill | Phaeolodonomus erythropthalmus | c 2. Red eyed form.
Large-tailed Antshrike | Mackenziernia leachi | 1 male seen well.
Star-throated Antwren | Myrtotherula gularis | 2
Short-tailed Anthrush | Chamaea campanisona | * 1. First record for MH.
Blue Manakin | Chiroxiphia caudata | c 10
Pin-tailed Manakin | Ilicura vespertina | 1female/imm.
Yellow-bellied Elaenia | Elaenia flavogaster | 2
Sao Paulo Tyrannulet | Phylloscartes paulista | * 2. First record for MH.
Large-headed Flatbill | Ramphotheca megacephala | 2. First record for MH.
Amazonian Royal-Flycatcher | Onychorhynchus coronatus | * 3. First record of this form. Atlantic Royal Flycatcher treated by some as separate species.
Euler's Flycatcher | Lathrotricus euleri | S3 2 heard only
Greenish Schiffornis | Schiffornis virescens | 2
Rufous-crowned Greenlet | Hylophilus poicilotis | S3 c 3 heard only.
Golden-chevroned Tanager | Thraupis ornata | c 10

10th September

Intervales State Park, Sao Paolo State

Solitary Tinamou | Tinamus solitarius | S3 1 heard only
Black-fronted Piping-Guan | Pipile jacutinga | * 4 First record for MH. 
two groups heard calling. One bird seen flying away. First record for MH.
Spot-winged Wood-Quail | Odontophorus capueira | S3 1 heard only
Blackish Rail | Pardirallus nigricans | S3 1 heard only
Variable Screech-Owl | Megascops atricapillus | S3 1 heard only
Mottled Owl | Ciccaba virgata | 1 seen well after responding to tape. First record for MH. 
brief views of bird flying over after responding to tape.

Festive Coquette | Lophornis chalybeus | 1 imm.
Thrush-like Woodcreeper | Dendrocincla tordina | c 4
Dusky-tailed Antbird | Drymohila malura | 1
Such's Anthrush | Chamaeqa meruloides | 1 seen well. First record for MH.
Rufous Gnateater | Conopophaga lineata | 2
Mouse-colored Tapaculo | Scytalopus speluineae | 1 of new form currently undescribed with distinctive call compared to previous birds this trip.
Swallow-tailed Cotinga | Phibalura flavirostris | * 3 seen well. First record for MH.
Cinnamon-vented Piha | Lipaugus lanoides | c 4 including 1 seen briefly.
Bare-throated Bellbird | Procias nudicollis | 1 female seen and sev. singing males heard only.
Red-rumped Cacique | Cacicus haemorrhous | c 5
Ochre-faced Tody-Flycatcher | Poecilotriccus plumbeiceps | S1 c 6 including 2 at nest.
Hangnest Tody-Tyrant | Hemitriccus nidipendulus | * 1 seen well. First record for MH.
S3 1 heard only. Additional species and unusual sightings only compared with 9/8 and 9/9/2006.
Sharpbill | Oxyruncus cristatus | 2. A group of howler monkeys heard in distance.
Southern Rough-winged Swallow | Stelgidopteryx ruficollis | 1 female/imm.
Hooded Siskin | Carduelis magellanica | 1 male
Orange-headed Tanager | Thlypopsis sordida | 1 male
Ruby-crowned Tanager | Tachyphonus coronatus | c 4
Red-crowned Ant-Tanager | Habia rubica | 1
Brazilian Tanager | Ramphocelus brevisili | 1 male
Chestnut-bellied Euphonia | Euphonia pectoralis | 1
Red-necked Tanager | Tangara cyanocephala | c 4
Brassy-breasted Tanager | Tangara desmaresti | 1 male
Chestnut-backed Tanager | Tangara preciosa | * 2. First record for MH.
Half-collared Sparrow | Arremom semitorquatus | * 2. First record for MH.
11th September
Ribeirao Grande Town, Sao Paolo State

Buff-necked Ibis Theristicus caudatus * 2 flew over. First record for MH.

Between Ribeirao Grande and Cacopava, Sao Paolo State

Capped Heron Pilherodius pileatus 1
White-tailed Kite Elanus leucurus 1
White-tailed Hawk Buteo albicaudatus c 4
Amazon Kingfisher Chloroceryle amazona 1
Curl-crested Jay Cyanocorax cristatellus 1

C 26km due SSW of Itapetinga, Sao Paolo State
23d48.78’S, 48d9.20’W
Marsh by road

Unicolored Blackbird Agelasticus cyanopus * 1 male. First record for MH.

By road c 6.8km due S of Cacapava, Sao Paolo State
23d9.59’S, 45d42.04’W
Freshwater pond with lillies and emergent reeds at c 600 m ASL.

Pied-billed Grebe Podilymbus podiceps 4
Great Egret Ardea alba 2
Snowy Egret Egretta thula 1
Cattle Egret Bubulcus ibis c 6
White-faced Whistling-Duck Dendrocygna vuduata c 20
Black Vulture Coragyps atratus 2
Common Moorhen Gallinula chloropus c 10
Wattled Jacana Jacana jacana c 4
White-headed Marsh-Tyrant Arundinicola leucocephala 2
White-rumped Swallow Tachycineta leucorrhoa c 10

By road c 1.7 km due NNE of Itatiaia centre, Sao Paolo State
22d29.19’S, 44d33.47’W
Marsh with reeds and sedges, patches of bushes and scrubby pastures.

Brazilian Teal Amazonetta brasiliensis 3 including c 2 seen. First record for MH.
Rufous-sided Crake Laterallus melanophaius c 3 heard only. Brief views of back of one bird
Blackish Rail Pardirallus nigricans S3 c 3 heard only. Brief views of back of one bird
South American Snipe Gallinago paraguaiae * 1 flushed. First record for MH.
Ashy-tailed Swift Chaetura andrei c 10
Yellow-chinned Spinetail Certhioides cinnamomeus c 3
Streamer-tailed Tyrant Gubernetes yetapa 1
Yellow-browed Tyrant Satrapa ieterophrhis 1
Fork-tailed Flycatcher Tyrannus savana 1
White-rumped Swallow Tachycineta leucorrhoa c 5
Blue-and-white Swallow Notiochelidon cyanoleuca
Southern Rough-winged Swallow Stelgidopteryx ruficollis c 5
Black-capped Donacobius Donacobius atricapilla 1
Common Waxbill Estrilda astrid c 5
White-bellied Seed eater Sporophila leucoptera 1 male

Itatiaia National Park, entrance to Hotel Simon

Dusky-legged Guan Penelope obscura c 10
Buff-fronted Foliage-gleaner Philydor rufurn 2
Oliveaceous Woodcreeper Sittasomus griseicapillus 1
Southern Antpiper Corythopis delalandi * c 3. First record for MH.
Euler's Flycatcher Lathrotriccus euleri 1
Chestnut-bellied Euphonia Euphonia pectoralis 2
Hotel Simon and Normas House, Itatiaia NP
Hummingbird feeders and forest and gardens around houses/hotel.

King Vulture
Sarcoramphus papa
2
Picazuro Pigeon
Patagioenas picazuro
c 40
Scale-throated Hermit
Phaethornis eurynome
c 5
Frilled Coquette
Lophornis magnificus
* c 4 males, 1 female/imm. First record for MH.

Violet-capped Woodnymph
Thalurania glaucopis
